ANNUAL REPORT OF THE MEDICAL OFFICER  
OF HEALTH FOR THE YEAR ENDED  
DECEMBER 31st, 1939.

To the Chairman and Members of the Health Committee.

I have the honour to present to you the Medical Officer's Report for the year ended December 31st, 1939.

The Report has been considerably curtailed in accordance with the instructions of the Ministry of Health and is largely a statistical Report.

I have the honour to be,

Your obedient servant,

FREDERICK G. E. HILL,  
Medical Officer of Health.

## INTRODUCTORY.

The Annual Report for 1939 is an abridged Report and is a summary of the Health and Sanitary Services for that year.

The outbreak of war in the autumn of 1939 necessitated modification of the work of the Health Department.

No loss of staff was experienced up to the end of 1939. Additional duties were imposed on the Department, chiefly in relation to Air Raid Precautions and Civil Defence Services. On the other hand, postponement of work under the Housing Acts dated from the early days of the war. Otherwise, up to the end of 1939, the work of the Health Department proceeded with little alteration.

Representations were made in 1939 for the clearance of further areas of dwelling-houses, areas 50 to 85 inclusive numbers. 301 dwelling-houses were included in these representations, and 827 persons were recorded as occupying these houses.

The Ministry of Health ordered an inquiry to be held in September, 1939, but, before the date on which the inquiry was to be held, a notice of postponement of work under the Housing Acts was received from the Ministry, the inquiry was not held and the Clearance Orders were not confirmed.

The provision of new Council Houses was similarly the subject of a postponement order, although work to the completion of certain estates has continued.

## SECTION C.—SANITARY CIRCUMSTANCES OF THE AREA.

### (1) WATER.

No change from general arrangements previously reported.

All main water is now chlorinated with the exception of a high level supply from the Water Tower.

Report on water samples (mains supplies) throughout the year have been consistently satisfactory.

Regular water sampling has been carried out. 134 samples submitted for examination through arrangements made by the Waterworks Committee showed that 119 samples were entirely free from the presence of B. Coli. One of the remaining samples showed 11 B. Coli per ml. of water, nine showed B. Coli as 2 or less per ml. of water, and the remaining 5 showed B. Coli between 3 and 10 per ml. of water.

39 samples of mains water supply taken by Inspectors of this Department and examined at the Public Health Laboratory, Wakefield, were all satisfactory, no report of B. Coli in any sample being made.

13 further samples of other waters from wells, streams, etc., were submitted for examination for various purposes connected with routine sanitary administration.

No restrictions were placed on domestic or trade users in 1939.

## SWIMMING BATHS AND POOLS.

Two Public Baths. Bath waters are subjected to continuous filtration and chlorination.

Turnover period 4 hours.

13 bath water samples were examined in 1939.

11 samples were reported on as satisfactory and 2 as unsatisfactory.

The 2 unsatisfactory samples showed the presence of B. Coli (in each case 35 per ml. of water) due to a temporary low chlorine content caused by a technical fault in the working of the chlorinating plant.

## 6. Housing Conditions.

- (1) Total number of houses in the District ..... 13023
- (2) Number of working-class houses included in  
above ..... 10568
- (3) General observations as to housing conditions,  
overcrowding and shortage of houses.

The Council had adopted a scheme to demolish 1,250 houses and re-house the displaced tenants in new Council houses within a period of 5 years. By reason of the outbreak of war, this scheme has been postponed.

In view of the movement of population arising from war conditions, the present situation regarding overcrowding is difficult to assess with any accuracy.

- (4) Any special activity in house building, if so, where?

The Council are proceeding with the completion of Estates mentioned in the Report for 1938.

Wide Lane, Morley.

Hill Top, West Ardsley.

Churwell Park, Morley.

- (5) Any housing scheme projected by the Local Authority, if so, give particulars?

The new Council Houses Provision Schemes referred to in the Report for 1938 are now in abeyance.

- (6) Any regulations made in respect of underground sleeping rooms under Section 12, Housing Act, 1936?—  
None.

## 7. Town Planning.

- (1) Is the Council a member of any Regional Town Planning Committee. If so, which?

Batley and District Joint Town Planning Committee.

(2) Is a Town Planning Scheme in force for

(a) The whole of the District—No.

(b) Part of the District—Yes.

If so, gave particulars of scheme.

Applies to part of the District only.

(3) Have Council during 1939 passed a Resolution deciding to prepare a Town Planning Scheme? If so, does it relate to:—

(a) Whole District?—No.

(b) Part of District?—No.

8. Name and address of Officer designated to make inspections under the Housing Consolidated Regulations—

Frederick G. E. Hill, Medical Officer of Health, Morley.

9. Has any action been taken to improve the housing conditions of tuberculous families in your District, either by way of building new or special houses or the granting of special facilities for such families to be housed? If so, please, state action taken?

No, but every consideration is given to these cases.

10. Housing Act, 1936—Part IV.—Overcrowding.

(a) (1) Number of dwellings overcrowded at the end of the year ..... 207

(2) Number of families dwelling therein ..... 207

(3) Number of persons dwelling therein ..... 1143

(b) Number of new cases of overcrowding reported during the year ..... 0

(c) (1) Number of cases of overcrowding relieved during the year ..... 13

(2) Number of persons concerned in such cases... 74

- (d) Particulars of any case in which dwelling-houses have again become overcrowded after the Local Authority have taken steps for the abatement of overcrowding.—None.
- (e) Any other particulars with respect to overcrowding conditions upon which the Medical Officer of Health may consider it desirable to report.

The position has improved considerably from the position at the date of the overcrowding survey. Many cases have been abated by re-housing in new Council houses.

(Signed) FREDERICK G. E. HILL,  
Medical Officer of Health.

#### OVERCROWDING IN COUNCIL HOUSES.

No. of Council Houses recorded as overcrowded, end of 1939 .....	16
---	----

No case of overcrowding in a Council House was recorded as abated in 1939.

#### CLEARANCE AREAS AND PROVISION OF NEW COUNCIL HOUSES.

Referring to the work described in the Annual Report for 1938, progress continues with the completion of the Wide Lane, Hill Top, and Churwell Estates, and as these houses become ready for occupation the transference of tenants from dwellings in confirmed Clearance Areas will proceed.

Demolition has been suspended as from the date of the outbreak of war.

No sanctions have been given for the re-occupation of vacated houses in confirmed Clearance Areas.
